

Information for Poster Presenters

Poster Presentations will be held at assigned times in assigned locations. The Poster Presentations will be held parallel to other Parallel Sessions.

With the application for poster presentation, you are required to identify the person who is responsible for the presentation.

You will identify the topic of the presentation, the material content of the presentation and how many posters the presentation will include.

You are required to bring the posters for the presentation yourself in due time. A single poster should be A2 sized (420 x 594 mm/16.5 x 23.4 in).

WSV will provide the site for the presentation, walls to hang the posters, and signage for the site outside the location. WSV will provide support staff, as well as forms so that you can collect email addresses in the event that visitors want to receive the presentation in digitized form (i.e. email-attachment).

Presenters have to be present during the entire time period assigned for their presentation to comment of their exhibition.

Submission of an application does not guarantee the applicant will be included in the program. Applicants will be given confirmation notice as to whether or not they have been accepted.
